Locations served: Mansfield, Learning center in Pawtucket

Pam has been helping students improve their PSAT, SAT and ACT scores for the past six years. She has an upbeat energy and attitude that inspires her students and helps make the preparation process more enjoyable.

“I really enjoy getting to know each of my students and connecting with them. It’s so gratifying to boost my students’ confidence and see them take taught skills and strategies back into their classrooms and test-taking situations for lasting success. I especially enjoy when they contact me after the test to tell me how much their scores improved!”
